

2. Does the Business have an Environmental Policy?

[More Details](#)  Insights

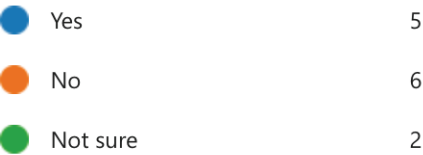

3. If so, please describe this policy.

8 Responses

1	anonymous	We recycle everything that we can. While we sell a number of items in bag-in-box we sell the majority of products in reusable tanks. We are currently the only distributor in the west still using this more environmentally friendly option.
2	anonymous	Fully based on Sustainability and sustainability targets
3	anonymous	That have many different initiatives around salmon salad, paktec recycling, renewable energy and carbo footprints.
4	anonymous	Our policy is not unique to our personal business but rather a part of our overall goals as a farming business. The long time period of meeting and exceeding sustainable and climate smart standards through SalmonSafe and LIVE (focused on winegrape production) certifications drives our environmental standards.
5	anonymous	Review pesticides before purchasing for environmental factors, waste reduction & streams, recycling, waste water and water conservation, etc.
6	anonymous	full compliance with all federal and state laws, maintain SQG status of Main Lab
7	anonymous	Low emissions facility.

4. Does this Business have a third party social or environmental certification that covers the company or its product/service?

[More Details](#)  Insights

5. If so, please describe this certification.

6 Responses

ID ↑	Name	Responses
1	Christian Ettinger	USDA Organics
2	anonymous	One of our product lines, Rocky Mountain Soda, is certified organic.
3	anonymous	LEED, 1% for the Planet, B corp
all responses for question 5		SalmonSafe certification is a science based and professionally monitored certification focusing on protecting the lands and natural environments of our farming business. The certification encompasses not only the growing acreage of a particular crop to be certified, but all contiguous land that is owned or managed by our business.
4	anonymous	
5	anonymous	B Corp Certified and Global Gap Certified
6	anonymous	Association of Plastic Recyclers (APR) recognitions. Sustainable Green Printing Partnership Certification, expanding certification to more of our locations. Ecovadis silver rating.

	Feedback	
2	anonymous	Some of the questions don't pertain to us so I answered "not sure". Also, I wasn't sure what constituted "local". I used "local" for purchases from Oregon businesses. The remainder comes from Surrey BC which isn't "local" but is less than 300 miles away.
3	anonymous	We appreciate your interest in our business, sustainability journey being one of our business partners
4	anonymous	Thank you for requesting our business information. This survey has already aided key organizational actions we need to address.
5	anonymous	Just keep doing great things for our environment and keep brewing great beer!
6	anonymous	We've answered this survey to the best of our knowledge, however since we are a distributor not a manufacturer, many of the questions appeared to not apply to us.
7	anonymous	None
